TECHNICAL SKILLS

Languages: JavaScript, Typescript

Frontend: Html5, Css3, JavaScript, React.Js, Next.Js, Tailwind Css, Material UI, Shadcn UI

Backend: Node.js, Express.js, PostgreSQL, Prisma(ORM), REST API, MongoDB, Github

Cloud Technologies: GCP, AWS(S3, RDS), Neon Tech, Uploadthing

EDUCATION

Rajarajeswari College Of Engineering

B.E in Information Science and Engineering

Bengaluru, Karnataka

Aug 2018 – May 2022

EXPERIENCE

Software Developer

Sep 2023 – Present

Jobox Hire Private Limited

Bengaluru, Karnataka

- Led the development of a job portal from scratch, contributing to both frontend and backend functionalities, optimizing API performance (30 % faster response time) and enhancing system scalability through reusable components, reducing development time by 20%.
- Improved code structure and implemented SEO best practices, resulting in a 15% increase in page speed, a 10% boost in organic traffic, and 20% reduction in maintenance time.
- Developed role-based, mobile-responsive dashboards that increased mobile user engagement by 25% and used Prisma ORM to optimize database queries,

Jobox Hire Recruit And Earn

Dec 2024 – Feb 2025

- Led the end-to-end development of the frontend for employer and admin portals, ensuring a seamless user experience from inception to deployment.
- Developed and optimized candidate referral workflows, enabling recruiters to refer candidates for job roles and earn incentives.
- Implemented form validation, authentication, and authorization to enhance security and user accessibility.
- Optimized UI components for performance, responsiveness, and reusability using Next.js, React.js, and Tailwind CSS.
- Integrated TypeScript for improved type safety, reducing runtime errors and enhancing code maintainability.
- Collaborated with backend teams to consume REST APIs, ensuring efficient data flow and dynamic content rendering.

PROJECTS

JoboxHire | *Next.js, Typescript, PostgreSQL, Docker, Prisma, AWS S3, AWS RDS, REST API*

Sep 2023 – Present

- Developed and optimized full-stack web pages using Next.js, React, and Typescript, ensuring mobile responsiveness, SEO-friendliness, and efficient code reusability.
- Implemented comprehensive form validations and dynamic CRUD operations using Prisma ORM and PostgreSQL, improving data handling and reliability.
- Enhanced application performance through code optimization, modular design, and Docker-based containerization for a seamless development and deployment process.
- Collaborated closely on front-end and back-end features, leveraging REST API for smooth client-server communication and maintaining scalable monorepo architecture.
- Led the end-to-end development process from initial setup to final deployment, ensuring thorough testing, and network optimization, with a focus on delivering a production-ready job portal solution.

CourseBuddy | *Next.js, Shadcn UI, Node.js, Typescript, Kinde Auth, PostgreSQL, Docker*

Nov 2024

- Designed and developed Course Buddy, a platform for posting and managing course reviews with features like OAuth authentication, search, filters, and pagination.
- Implemented user interaction functionalities such as liking, disliking, rating reviews, and a robust admin dashboard to manage reported reviews.
- Built the platform using Next.js, Tailwind CSS, Shadcn UI, and Kinde Auth for a modern and responsive user experience.
- Leveraged Prisma ORM and PostgreSQL for efficient database management and optimized server-side communication using server actions and REST APIs.

BidVerse | *Next.js, Tailwind CSS, Typescript, Prisma(ORM), PostgreSQL*

Aug 2024

- Developed BidVerse, an auction web app enabling users to create auction items and place bids in real-time.
- Utilized Next.js, React, Tailwind CSS, Prisma (ORM), and PostgreSQL for robust front-end and back-end integration.
- Integrated Uploadthing for efficient file uploads, ensuring seamless user experience in managing auction items.
